5X1X	Schwiebus.	
	7. The construction of barracks installations in Schwiebus (0.53/2.33) was completed by early July 1951. There were no indications that the installation was to be occupied by troops. ***	
SX1A	* Comment. Similar information was previously received by other resettlers.	
5X1A	** Comment. The Polish WOF (border guard) unit is confirmed in Waldenburg. It is probably assigned to the 23d WOF Drig in Glatz.	

Comment. No troops have been observed in Schwiebus since the war, nor were troops stationed there prior to 1939.
